

Explore bird biology and learn to draw an owl with an artist.

Subject: STEM and Creative Arts (Drawing)

Grades: K – 6

Activities

Best Nest by Lyndsay Wasko uses beautiful illustrations and fun facts that will teach your students about different birds. With the virtual resources below, students will investigate the internal systems of organisms and be able to explain how they support vital biological processes. They will also explore different ways to draw and how to refine their art through an artist demonstration.

Best Nest, read aloud by the author.

Length: 3.5 minutes
